2312 CLASS SIZE

The pupil-teacher ratios for grades kindergarten through twelve will be established during the annual budget development process. Ratios will be established when the Board of Education approves the budget for submission to the public.

The criteria used to set these ratios will be based on the professional advice of the Superintendent developed in consultation with the Building Principals and appropriate central office staff. All ratio decisions must be within the financial support available in the appropriate school year.

Adopted: 22 November 2004
